vegetation, plants yielding
seed after their kind, and
trees bearing fruit with seed
in them, after their kind; and
God saw that it was good.**

Photosynthesis

$\text{H}_2\text{O} + \text{CO}_2 + \text{Sunlight} = \text{O}_2 + \text{Food}$

Daniel Kordan photo

A photograph of a dense forest. The foreground is filled with a thick carpet of green ferns. In the background, numerous tall, slender tree trunks rise vertically, creating a sense of depth. The lighting is soft, filtering through the canopy.

Vegetation on Land not in Oceans

important chemical reactions on
earth.”**

THE MYTH OF **EVOLUTION**

“Ultimately the Darwinian theory of evolution is no more nor less than the great cosmogenic myth of the 20th century.”

Michael Denton

A photograph of the Sea of Galilee at sunset. The sun is a bright, glowing orb on the right side of the horizon, casting a long, shimmering reflection across the water. In the foreground, a long pier with several vertical support pillars and a truss bridge section extends from the left towards the center. The water is dark with gentle ripples. In the distance, low hills are visible under a hazy, orange-tinted sky. The overall mood is peaceful and majestic.
