

SCIENCE AND THE SCRIPTURES
FLOOD vs. HISTORICAL GEOLOGY - Scientific Evidence

Ray Mondragon

I. The Introduction

II. The Scientific Evidence -

according to Flood stages

A. The Causes of Flood

1. The Tectonic movements
2. The Fountains of deep
3. The 40 day rain-storm

B. The Inundation Stage

1. The Waters prevailing
2. The Massive erosion
3. The Sedimentation
 - a. The Existence of Fossils
 - b. The Fossil Graveyards
 - c. The Polystrate Fossils
 - d. The Coal and Oil Deposits
 - e. The Sedimentation Layers

C. The Recession Stage

1. The Mountain building
2. The Volcanic eruptions
3. The Massive Erosion
4. The Ice age
5. The Stabilization

III. The Evidence from Catastrophes -

Mt. St. Helens

IV. The Evidence from History and Culture -

world-wide
