

CREATION vs. EVOLUTION - Mutations Destroy Evolution

Ray Mondragon

I. The Introduction

A. The Challenge

B. The Models

A. The Evolution Model

B. The Creation Model

C. The Contrast of Two Models

D. The Predictions of Models

II. The Mechanism

A. The Issue

B. The Weakness

1. They are Rare

2. They are Unpredictable

3. They are Harmful

4. They Produce Genetic Burden

5. They are Pathological

6. There is Rejection

7. There is Information Loss

III. The Conclusion - Mutations destroy Evolution
